

COMMONWEALTH PRIMARY CARE, INC.

Notification of Research Study Opportunities

Dear Commonwealth Primary Care Patient:

Thank you for choosing Commonwealth Primary Care, Inc. (CPC) for your medical care. CPC physicians and patients participate in various clinical trials and studies to help improve disease understanding, treatments, and symptom management. When a new research opportunity is available, our physicians review it carefully to determine whether it might benefit our patients. If the physicians believe that the research study could be beneficial to our patients, we identify which CPC patients may be eligible to participate in the study. Once we identify these patients, we contact them to give them an opportunity to learn more about the study. The patient then chooses whether to participate.

If you do not want to be contacted about opportunities to participate in research studies, please complete this form and return it to the office of your provider. If you do not complete this form, we may contact you about participating in research studies in the future. **Whatever you decide, CPC will honor your wishes and your current and future care will not be affected in any way.**

Your consideration is appreciated.

The Doctors of Commonwealth Primary Care, Inc.
